

Rain On My Skin

Author: Jarosław Pawlik

I was too long under your wings
And I don't know so many things
All my fantasies are already gone
But now I feel that I am strong

And rain is falling on my skin
I feel like I dream my velvet dream
I feel like I have been here
I am sure I have been
The rain is falling on my skin

I was too long in my golden cage
It's time to stay in front of the stage
It's time to play my personal song
And nobody tells me I'm doing wrong

And rain will falling on my skin
I feel like I dream my velvet dream
I feel like I have been here
I am sure I have been
The rain is falling on my skin

The rain is falling on my skin...
